Artemis Gallery presents a decorative sunglasses show in a tribute to the summer and music festivals!

During the summer months of travel, beach vacations, music festivals, and poolside parties, you need a good pair of sunglasses to shield you from the glare of the sun.

This year with a fashion runway show behind us and hit music festivals coming up all summer; John Crutchfield and a team of talented artists will make and create high fashion decorated sunglasses to wear all summer to the beach, to the swimming pool, and to the music festivals.

During a live studio session at the Metallic Art Graphics Studio, several artists will create these high fashion outrageous glasses to be exhibited at Artemis Gallery July 1st.

Come participate in the jam session and the decorative sunglasses session.
